CANADIAN SKINCARE

INTRODUCING LUMIÈRE DU NORD,
A NEW CANADIAN SKINCARE LINE
FROM LE NORDET, DEVELOPED WITH
A UNIQUE UPCYCLED CANADIAN
KEY INGREDIENT.

LENORDETCANADA.COM

OUR MISSION

We believe that healthy skin is the best thing you can wear at every age and for any active lifestyle. No matter what life brings one's way, we believe skincare should keep up and protect. This is why we are dedicated to nourishing the skin with the most effective blends that the Canadian Northern forest has to offer.

In the present document, you will discover our line's products and their overarching benefits as well as different marketing avenues available to distributors.

INTENSE REGENERATING SERUM

[HEAL]

This face & neck, day & night serum ensures healthy skin vibrancy by working in depth to visibly hydrate, tone and restore skin for a firmer look & feel. Our highest concentrated formula yet, gives your complexion the boost it needs to truly look rejuvenated and radiant.

OUR SERUM'S KEY ACTIVE INGREDIENTS:

POWERFUL PLANT EXTRACTS

Our serum is enhanced with unique skin-regenerating plant extracts.

GLYCINE SOJA (SOY BEAN) EXTRACT DEEP SKIN RESTORATIVE PLANT

Soy Bean and its bioactive components have natural anti-oxidative properties and protect the skin against UV radiation, to effectively prevent symptoms related to photo-induced aging of the epidermis. Soy Bean and its bioactive components also have anti-inflammatory & skin-lightening effects to ensure smooth and glowing-looking skin. They were found to induce the synthesis of collagen and elastin, key components to preserving firm and youthful-looking skin.

ANIGOZANTHOS FLAVIDUS FLOWER EXTRACT POWERFUL ANTI-WRINKLE FLOWER

Anigozanthos Flavidus provides antioxidant benefits while naturally increasing type I collagen, tenascin - X and elastin in the skin, giving it the power to effectively reduce the appearance of wrinkles and have long-lasting tensing effects on sagging skin.

CISTUS INCANUS FLOWER EXTRACT ULTIMATE SKIN-PROTECTING FLOWER

Cistus Incanus has anti-hyperpigmentation properties that promote skin-lightening as well as antioxidant properties that work to protect your skin from harmful external aggressions responsible for skin aging.

[HIGH CONCENTRATION OF UPCYCLED CANADIAN BLACK BEAR PURIFIED OIL]

Our Intense Regenerating Serum contains the highest concentration of upcycled Canadian black bear purified oil of the Lumière du Nord line. Upcycled Canadian black bear purified oil is a deeply hydrating active ingredient from the boreal forest, naturally abundant with omega 6-9 and palmitic acid.

REPAIRS SKIN BARRIER

Omega- 6 (Linoleic Acid) and Palmitic Acid work to truly strengthen your skin barrier in order to prevent moisture loss and protect your epidermis from external aggressions – keeping your skin looking healthy and deeply hydrated.

HEALS

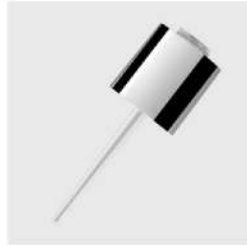

Omega 6-9 (Linoleic Acid & Oleic Acid) and Palmitic Acid are powerful & natural anti-inflammatory agents, making them gentle wound healers and true anti-aging allies.

FIGHTS HYPER-PIGMENTATION

Omega-6 (Linoleic Acid) reduces hyper-pigmentation which in turn brightens your skin for a naturally induced healthy glow.

Le nordet adheres to an upcycling ethic. We decoct the fat from bears previously hunted by registered recreational Canadian hunters that have no link with our company. It is important to note that we receive the oil through a strict controlled process that is overviewed by the Canadian government, and that black bears are not considered an endangered species in Canada. For more info visit the FAQ section of our website: lenordetcanada.com

Bottle Mechanism:
Auto Dropper

BOTTLE SIZE:
30 ml - 1 fl. oz.

USE:

Face and Neck | Day and night

BENEFITS

FIRM & NATURAL LIFTED APPEARANCE

INTENSE HYDRATION

REINFORCES AND SMOOTHS SKIN'S APPEARANCE

ENHANCES SKIN BRIGHTNESS

HIGH CONCENTRATION OF OUR POWERFUL KEY INGREDIENTS

AGE-DEFYING & SKIN GLOWING MOISTURIZING CREAM

[GLOW]

This face & neck, day & night cream visibly improves the appearance of the skin by deeply hydrating and regenerating its natural protective barrier. It ensures naturally healthy, glowing and smooth-looking skin that will keep up with any lifestyle.

OUR CREAM'S KEY ACTIVE INGREDIENTS:

VITAMINS

VITAMIN E

FREE RADICALS SCAVENGER

Vitamin E is a powerful antioxidant that works to scavenge free radicals and protect the skin from their oxidative stress effects that strongly damage the epidermis. Its protection in turn helps maintain hydrated & anti-aging skin. Vitamin E also has soothing anti-inflammatory properties to help maintain firm-looking skin. It is an essential ingredient for skin health promotion and maintenance.

TERMINALIA FERDINANDIANA FRUIT EXTRACT (KAKADU PLUM) VITAMIN C BOOST

Kakadu Plum is known for its naturally high levels of vitamin C & Ellagic Acid: two uniquely potent antioxidants that also boost levels of collagen within your skin. Vitamin C stimulates collagen synthesis and regulates collagen/elastin balance in the dermis, while ellagic acid prevents collagen destruction which reduces signs of aging such as fine lines and wrinkles.

E + C = Antioxidant Dream Team

Fun fact, vitamin C & vitamin E are particularly effective at reducing oxidative damage to the skin when used in conjunction!

HYDRATING POWERHOUSES

Hydration is the pillar of healthy and glowing-looking skin. This is why we have put it as our top priority in creating this cream: promising deep and long-lasting hydration for firm and youthful-looking skin.

XYLITYLGLUCOSIDE

Maintains the skin barrier's healthy function, allowing the skin to hang on to its moisture.

ANHYDROXYLITOL

Draws in and maintains moisture in the skin.

XYLITOL

Deep humectant with prebiotic ability that helps skin stay healthy.

ALLANTOIN

Has both soothing and moisturizing properties for the skin.

SODIUM HYALURONATE

Skin-replenishing ingredient with a remarkable ability to help skin retain A LOT of moisture.

[UPCYCLED CANADIAN BLACK BEAR PURIFIED OIL]

Upcycled Canadian black bear purified oil is a deeply hydrating active ingredient from the boreal forest, naturally abundant with omega 6-9 and palmitic acid to complete this cream's overarching benefits.

REPAIRS SKIN BARRIER

Omega-6 (Linoleic Acid) and Palmitic Acid work to truly strengthen your skin barrier in order to prevent moisture loss and protect your epidermis from external aggressions – keeping your skin looking healthy and deeply hydrated.

HEALS

Omega 6-9 (Linoleic Acid & Oleic Acid) and Palmitic Acid are powerful & natural anti-inflammatory agents, making them gentle wound healers and anti-aging allies.

FIGHTS HYPER-PIGMENTATION

Omega-6 (Linoleic Acid) reduces hyper-pigmentation which in turn brightens your skin for a naturally induced healthy glow.

Le nordet adheres to an upcycling ethic. We decort the fat from bears previously hunted by registered recreational Canadian hunters that have no link with our company. It is important to note that we receive the oil through a strict controlled process that is overviewed by the Canadian government, and that black bears are not considered an endangered species in Canada. LE NORDET

PRODUCT TESTIMONIAL

BY DR. CHRISTINE TERESA TAN HUI SUAN

MB ChB | Bachelor of Medicine & Surgery
Manchester, United Kingdom

Founder & Medical Director
DermstetiQ Clinic

Camden Medical Center | Singapor

I am an Aesthetic Doctor working in a busy private practice in the heart of Orchard City Centre in Singapore.

As I perform a wide range of non-invasive cosmetic treatments from Lasers, IPLs, Filler Injections to Ultherapy Face Lifting that create various degrees of skin injuries – post procedure skincare plays a crucial role in the success of any treatments I do.

A good post-procedure care regime includes using skin care formulations that are gentle, yet able to repair skin barriers. In addition, such skincare products should also contain proven active ingredients with anti-inflammatory and anti-oxidant properties that help reduce skin erythema (redness) swelling and dryness to ensure optimal results for my esteemed patients.

Upon being introduced to Le Nordet Skincare which contains the novel upcycled Canadian Black Bear Oil - I was amazed with how the different ingredients in the product work synergistically to provide benefits such as hydration, skin healing, anti-inflammatory and anti-aging all at the same time!

Le Nordet Skincare has given my patients the extra lift, glow and radiance they desire after every aesthetic procedure done and even long after that.

ULTIMATE SKIN RENEWAL SET

We offer the Lumière du Nord products as a duo set, containing both our Intense Regenerating Serum & our Age-Defying and Skin Glowing Moisturizing Cream.

The application of both the serum followed by the cream ensures ultimate results as they double up the effects the on epidermis.

KEY INGREDIENT TAGGING:

We offer the option of tagging the product boxes with our key Ingredient silver metallic sticker, in order to display the use of our unique and natural **Upcycled Canadian Black Bear Purified Oil**.

 Le nordet adheres to an upcycling ethic. We decoct the fat from bears previously hunted by registered recreational Canadian hunters that have no link with our company. It is important to note that we receive the oil through a strict controlled process that is overviewed by the Canadian government, and that black bears are not considered an endangered species in Canada.
